Group hunting / Driven hunting:

Wild Boar & Other Big Game:

We only do quality driven hunting in the Danube territory. For a successful hunt there must be a group of 3-10 hunters, depending on the area. In our areas it is absolutely possible to shot about 50-80 boars / per group / per day. In some areas you can hunt for Red Stag, Fallow Deer, Moufflon and Sika Deer along with Wild Boar.

The accommodation for this hunt is in a famous castle or Chateau with antique furniture and aristocratic flair or in a luxury Hotel near the area. From Hotel or Castle it is about a 15min drive to the hunting ground.

The hunting organisation on driven hunting consists: 20 beaters, 5-10 dog handlers, and professional guide for every hunter, skinner, cook, waiter and traditional horn blowers. We normally organise 2-3 drives per hunting day. Between the drives we have lunch at our hunting camps.

In Romania we offer the challenging driven brown bear and Wild Boar hunting.

Our success rate on driven bear hunting was in the last 4 years 100%. Every hunter saw min. 5 -7 bears in just 3 hunting days. In Romania you find the biggest brown bear of Europe. The accommodation is in a modern hunting lodge or in luxury hotel. In three days hunting, normally every hunter shoots a big bear and a few wild boars of different quality.

Game Birds

For Pheasants and Ducks we mainly hunt in Slovakia, Czech Rep. and Hungary.

Over the last 20 years we have developed the most exclusive and traditional shooting estates dating back to the Austro-Hungarian monarchy and we only offer quality shoots around our magnificent chateaux for daily bags from 500 to 2000 birds for hunting parties of minimum 6 guns up to 12 guns. The accommodation is in famous castle or Chateau with antique furniture and aristocratic flair.

We have developed the shooting estates for many years, and now we are able to offer great shoots to our international wing shooters. Some of these estates are in hilly terrain, with excellently placed drives, perfect hunting organisation and well trained loaders, beaters and dogs, as well as horn blowers throughout the day. All shooting areas are within a distance of a 15 to 50 minutes' drive from one of the chateaux's by coach-bus. There are eight different estates to choose from.

For all our areas where we do driven hunting, we organise traditional ceremony (horn blowers etc.) after the hunting.

That means: All the animals which get shot in the hunting day will brought to a field and will be seated in traditional lines. Around the lines we will prepare fire and other traditional decorations. When the ceremony starts, hunting signals from traditional hunting horns will be played. It is a truly special experience that every hunter should experience.
